

October 8th - Webinar

Rebuilding After Disasters: Finding a Community in Sustainability

Presented by

Barrett

- MySafe:LA - co-founder and director
- Rebuild:LA podcast - host and producer

Rebuilding California Together

RISE Homes Overview

What is RISE Homes?

RISE Homes (**R**ebuilding **I**ncentives for **S**ustainable **E**lectric **H**omes) is a California Public Utilities Commission (CPUC) program to provide financial incentives, assistance, and support for rebuilding energy-efficient, all-electric homes across California.

What does the program provide?

Incentives for All Housing

Incentives for all-electric residential homes, including single-family, multifamily, ADU's, modular, and manufactured homes.

Dedicated Support

Program staff will provide support through the life of the project for the applicants, builders, and stakeholders.

Stackable Incentives

Projects can combine funding from other programs, including the California Electric Homes Program (CalEHP).

Bonus Incentives

Additional incentives available for whole home batteries, ultra-low GWP heat pump water heaters, and passive house certification.

Single-Family	\$10,000
Modular Housing	\$8,000
Accessory Dwelling Units (ADUs)	\$7,000
Multifamily Low-rise	\$5,000
Manufactured Housing	\$7,000

Express Incentives

Measure	Incentive Amount
Heat Pump Heating Ventilation and Air Conditioning (HP HVAC) System	\$1,000 to \$2,500 per ton
ENERGY STAR® Qualified Heat Pump Water Heater	\$1,500 to \$2,500 per unit
Electric Heat Pump Clothes Dryer (Compact & Standard)	\$80 - \$500
Electric Induction Cooktops	\$225
Electric In Wall Oven	\$475
Electric Induction Range	\$1,000

An aerial photograph of a rugged mountain range. The mountains are covered in dense, dark green forest, with some rocky peaks visible. A thin, winding road or path is visible on the slopes. The lighting suggests a late afternoon or early morning scene, with warm, golden light illuminating the mountain ridges. The sky is a pale, hazy blue.

THE FOOTHILL CATALOG FOUNDATION

Rebuilding After Disasters

THE FOOTHILL CATALOG FOUNDATION

THE MISSION

To utilize preapproved plans as a mechanism to allow displaced fire survivors to rebuild efficiently, resiliently, and affordably, while collectively retaining our community identity and local architectural character.
